 - Source Code Management (Git, Github, Gitlab, Gerrit)
 - Enterprise Linux Distributions (RedHat, SUSE)

ADDITIONAL

- Certifications in the above areas are beneficial
- High willingness to learn
- Quick grasp of complex IT landscapes
- Willingness to travel
- Very good spoken and written English

WE ARE

Our aim is to provide our customers with the best possible advice, to accompany them through the challenges and upheavals of the cloud revolution and at the same time to always be at the cutting edge of technology and processes. We pass on this knowledge and experience to our customers in the form of enablements, coaching and workshops and accompany them as reliable partners on their way into and within the cloud. We, the Cloudibility, act manufacturer and platform independent.

Please send us your complete application including your salary expectations and your earliest possible starting date to the following address: tom@cloudibility.io
